

# Bablu Verma

Full Stack Developer (React.js | Node.js | React Native)

## Contact Information

**Linkedin:** linkedin.com/in/babluverma | **Github:** github.com/bablu-verma | **Location:** Noida, India

## Professional Summary

Full Stack Developer with 3+ years of experience building scalable web and mobile applications using React.js, Next.js, Node.js, and React Native. Skilled in developing secure RESTful APIs, real-time systems, and payment integrations. Experienced in integrating AI solutions (OpenAI, Gemini, DeepSeek) and optimizing performance with SEO techniques (SSR/SSG). Proven ability to lead teams and deliver reliable, production-ready applications.

## Technical Skills

**Languages & Frameworks:** JavaScript (ES6+), TypeScript, Node.js, Express.js, Linux, React.js, Next.js, React Native (iOS, Android), Expo, HTML5, CSS3, Tailwind CSS

**Backend Development:** RESTful APIs, API Design, MVC Architecture, Microservices, Authentication (JWT, OAuth 2.0), RBAC, Webhooks, Cron Jobs, Rate Limiting, Error Handling, Asynchronous Programming

**Databases:** MongoDB, PostgreSQL, Mongoose (ODM), Prisma (ORM), Data Modeling, Database Optimization

**Cloud & DevOps:** Docker, Firebase, CI/CD, Google API Integration, Git, GitHub, Postman

**Other Skills:** Redux Toolkit, Responsive Design, Mobile-First Design, Payment Gateway Integration (PhonePe), Performance Optimization, Debugging, Code Refactoring, SEO, SSR, SSG, Real-time Notifications, OpenAI, PM2, Nginx

## Professional Experience

**Fullstack Developer (Full-time)** - 4tuners Technologies | Greater Noida, India | Nov 2025 – Feb 2026

- Developed high-performance single-page applications (SPAs) and full-stack e-commerce platforms using Next.js and Node.js/Express.js, delivering responsive UIs and scalable backend solutions
- Designed and implemented secure PhonePe payment gateway integration for seamless online transactions
- Built an offline-first Point of Sale (POS) system for retail stores using Next.js and Node.js/Express.js, enabling uninterrupted billing and sales operations with background data synchronization
- Managed and mentored a cross-functional team of 5 (3 Developers, 1 UI Designer, 1 SEO Specialist), coordinating tasks and driving timely delivery of full-stack projects.
- Delivered SEO-friendly, performance-optimized web applications using server-side rendering (SSR) and static site generation (SSG).

**React.js & React Native Developer (Full-time)** - Freekaamaal.com | Noida, India | Sep 2022 – May 2025

- Developed and maintained SPAs using React.js and Next.js, delivering highly responsive and user-friendly interfaces across multiple devices
- Built and enhanced mobile applications using React Native for Android and iOS platforms, implementing reusable UI components for Woost.io and Freekaamaal app
- Integrated Google APIs, Firebase Authentication, Firebase Cloud Messaging for push notifications, and third-party services for robust real-time data handling and secure authentication
- Collaborated with cross-functional teams including design, backend, and QA to deliver scalable, feature-rich applications, significantly improving customer satisfaction and user retention
- Implemented API-based product tracking and real-time deal updates, increasing user engagement

## Web Developer (Full-time) - Qwerty Code | Noida, India | Mar 2022 – Aug 2022

- Designed and implemented a scalable blog API using Node.js, Express.js, and MongoDB for efficient content management
- Engineered backend architecture capable of handling high traffic and large datasets without performance degradation
- Developed RESTful APIs following MVC architecture and best practices for maintainability and scalability

## Key Projects

### Woost.io (Web & App) | Freekaamaal.com

- Developed a freelancing platform enabling seamless interaction between clients and freelancers using React.js and React Native
- Designed intuitive and accessible UI/UX, enhancing user engagement and retention
- Integrated real-time notifications using Firebase and ensured cross-platform performance for Android and iOS

### Freekaamaal.com (Web & App) | Freekaamaal.com

- Engineered a cashback and deals platform using Next.js and React.js, optimizing SEO and performance through SSR and SSG
- Developed mobile app with intuitive UI/UX, Firebase push notifications, and Google/Firebase Authentication for secure real-time updates
- Implemented API-based product tracking and real-time deal updates, increasing user interaction by 35%

### BachatJar (Web) | Freelance

- Developed cashback and coupon platform using Next.js with seamless user experience and intuitive navigation
- Optimized performance and SEO through SSR and SSG, enhancing page load times and user engagement.

### Gaurastra.com | 4tuners Technologies

- Built full-stack e-commerce web application using Next.js (frontend) and Node.js/Express.js (backend)
- Implemented secure PhonePe payment gateway integration with webhook handling
- Delivered responsive, SEO-friendly UI/UX with optimized performance and fast load times

### POS System (Offline-First) | 4tuners Technologies

- Designed and developed an offline-first Point of Sale system for retail stores using Next.js and Node.js/Express.js
- Enabled seamless billing, sales workflows, and background data synchronization ensuring offline functionality and high reliability
- Implemented local storage strategies and conflict resolution for data consistency

### Strategy Classes (Web) | 4tuners Technologies

- Enhanced and maintained an existing exam preparation platform using React.js, Node.js, and MongoDB
- Optimized backend APIs and database queries, resulting in faster response times and improved application performance
- Implemented new features and fixed existing issues to ensure a stable and reliable user experience

## Education

- **Bachelor of Computer Applications (BCA), Specialization in Cloud & Cyber Security** — Amity University, Noida | 2023–2026 (Pursuing, Online Learning)
- **Senior Secondary (12th)** — GBSS School, Delhi | 2020–2021

**Language** Hindi (Native), English (Professional)
